PROJECTS

- **Medico AI** — 05/2025 - 06/2025
  Github
  - - A cutting-edge medical assistant designed to support medical students in studying, clinical reasoning, exam preparation, and medical research
  - Provides detailed, evidence-based, and current medical knowledge with authoritative citations
  - Explains concepts clearly and comprehensively to enhance understanding
  - Excels in analyzing medical images, illustrating concepts visually, and simulating clinical scenarios
  - Assists with multiple-choice questions (MCQs), Objective Structured Clinical Examinations (OSCEs), and case discussions
  - Ensures clarity by acknowledging uncertainties and refrains from providing real patient care advice

- **Timeline 898** — 01/2025 - 02/2025
  Github
  - Timeline 898 helps students optimize study time, track daily routines, and achieve academic excellence through intelligent time management.
  - Daily Routine Tracking Effortlessly log and analyze your daily activities with intuitive visual tracking.
  - Study Time Optimization AI-powered recommendations to improve study efficiency and time management.
  - Comprehensive Reports Generate detailed daily and monthly performance insights with actionable analytics

- **AI898** — 06/2025 - 06/2025
  Github
  - - Free & Unlimited Enjoy unlimited access to all AI models and features without any cost or restrictions.
  - Save Money No subscriptions, no hidden fees. AI-898 is completely free, helping you save on expensive tools.
  - Multiple AI Models Access a diverse range of unique, state-of-the-art generative models for any task.
  - No Payments We will never ask for your payment information. The platform is free, forever.
  - Save Money No subscriptions, no hidden fees. AI-898 is completely free, helping you save on expensive tools.
  - Open Source Our project is open source, fostering community collaboration and transparency.

EDUCATION

- **Lords university** — Chikani , Alwar, Rajasthan
  BCA - CS - 56 % — *2022 - 2024*

- **Rajsthan public School** — Khethwada
  10th - Bio - 95.5 % — *2018 - 2019*

- **SSP** — Sikar Rajasthan
  12th - Biology - 98.5 % — *2019 - 2020*

SKILLS SUMMARY

- **Languages**   HTML, python, bash, JavaScript, php
- **Frameworks**   Reactjs
- **Databases**   MySQL
- **Tools**   Vscode, android studio

ABOUT ME

- - Developer and creator of Medico AI and related projects
- Passionate about integrating technology with medical education and research
- Dedicated to providing accurate, evidence-based, and accessible medical knowledge
- Skilled in AI, programming, and medical sciences
- Committed to supporting medical students and professionals worldwide
- Enthusiastic about innovation and continuous learning in healthcare technology
- Connects with users to improve and expand AI tools for medical education
